The Committee spent the bulk of the meeting discussing the Budget Newsletter and other communication strategies related to the Budget. Liz has a draft and Lisa and Tracy will review it before sharing it with Penny for further review. Liz shared the new lawn signs are being ordered this year since our old signs are very outdated and need to be replaced. Tracy is working on her letter from the BOE President.

The Committee also discussed the DEI project for the collection of student voices. Kevin is meeting with Sheila Kusi-Asare this week to discuss this and how we can get students involved. Ideally, this project should be completed by the end of the school year.
